Average Order Value	2682.24

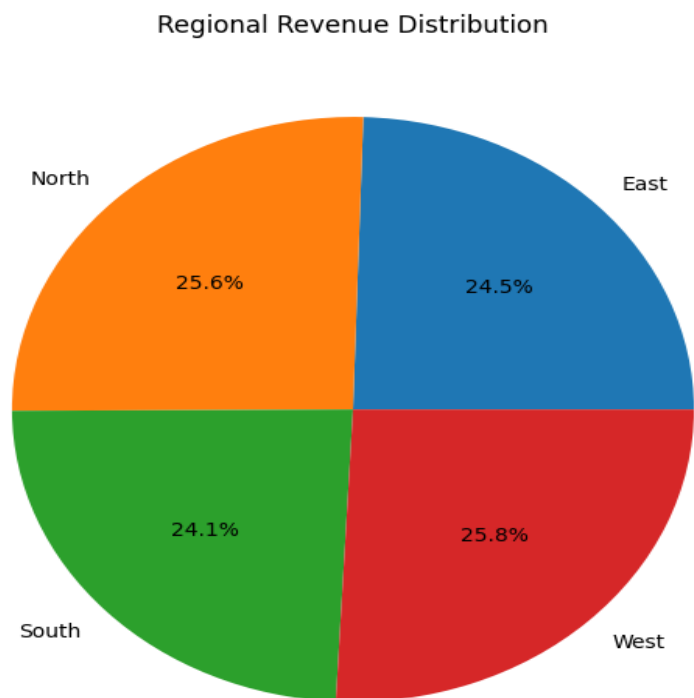

Monthly Revenue Trend

Top Performing Products

Regional Revenue Distribution

Key Findings:

1. Electronics products generated the highest revenue.
2. Revenue trends indicate seasonal sales spikes during certain months.
3. The North and West regions contribute significantly to total revenue.
4. Some products show consistently lower sales performance and may require repositioning.
5. Average order value remains healthy, indicating strong purchasing behavior.

5 Tactical Improvements for Alfido Tech:

1. Increase promotions during peak seasonal months to maximize sales.
2. Bundle low-performing products with high-demand products to improve sales volume.
3. Expand marketing campaigns in high-performing regions for better ROI.
4. Introduce personalized recommendations to increase average order value.
5. Optimize inventory planning based on monthly demand trends.
